

Safety and Security Information

IRMAGARD

Product: Designer Handbag with Enhanced Personal Safety Features

Features: Strong Light, Loud Alarm

Compliance: Compliant with EU Safety and Product Standards

General Safety Instructions

Your designer handbag has been specially crafted to enhance both style and personal safety. It includes integrated features such as a strong light and a loud alarm to provide an extra layer of security in emergencies. Please take note of the following important safety instructions to ensure optimal use:

1. **Water Resistance:** The handbag can withstand rain; however, it is not designed for full submersion. Please avoid swimming or submerging the handbag in water, as it may damage the electronic components.
2. **Avoid Extreme Temperatures and Vibrations:** The handbag contains electronic components and batteries that do not perform well under extreme conditions. Avoid exposing the handbag to temperatures above 40 degrees Celsius or below -10 degrees Celsius, and avoid subjecting it to strong vibrations to ensure proper functionality.
3. **Proper Use of Safety Features:** The strong light and loud alarm are intended to help keep threats at a distance by drawing attention or disorienting potential threats. The handbag is not intended to be used as a weapon; however, if you find yourself in an emergency situation, you can use it to defend yourself

physically. Please note that any physical impact may cause superficial damage to the handbag's exterior.

4. **Avoid Direct Exposure to Light and Alarm:** Do not shine the strong light directly into your eyes or set off the alarm in enclosed spaces unless in an emergency. Both features are designed to be highly effective and unpleasant, which could cause temporary discomfort to your eyes and ears.
5. **Do Not Disassemble:** For your safety, do not attempt to disassemble the handbag or any of its components. Doing so will void the warranty, and it may expose you to parts that could cause injury. Additionally, reassembling the product may be difficult or impossible, rendering it unusable.
6. **Stay on the ground:** Although the battery in IRMA has the certification needed to fly on an airplane and the handbag complies with all European standards, we are still waiting for the magic CE letters and going through airport security could be unpleasant, which is the last thing we want.
7. **Reach Out for Support:** We are here to help! If the handbag does not meet your expectations in terms of safety or functionality, please do not hesitate to contact us. Our goal is to provide you with a product that combats fear and brings joy, so if it does not, we want to hear from you.

EU Compliance Statement

This product has been designed and tested to comply with the relevant EU directives and regulations, ensuring a high level of safety for consumers. The handbag complies with the following EU directives:

- **Radio Equipment Directive (RED):** It ensures a single market for radio equipment by setting essential requirements for safety and health, electromagnetic compatibility, and the efficient use of the radio spectrum.

- **Battery Directive (2006/66/EC):** All batteries used in this product meet EU standards for safety and environmental compliance.
- **General Product Safety Directive (2001/95/EC):** This handbag has undergone a general safety assessment to confirm that it is safe for the intended use, particularly in public environments.

Intended Use and Limitations

- **Personal Safety Features:** The alarm and strong light are intended to be used in situations where the user feels unsafe or needs to attract attention. These features are not intended as substitutes for personal protective equipment or security services.
- **Maintenance and Care:** Regular maintenance is required to keep the safety features in full working order. Damaged or malfunctioning components should be replaced immediately by a qualified technician to ensure compliance with EU safety standards.

Disposal and Environmental Responsibility

This product contains electronic components and batteries that must be disposed of responsibly. Please follow local EU guidelines for the disposal of electronic waste and batteries. Improper disposal can cause environmental harm and may result in penalties under EU regulations.

Warranty and Liability

The handbag's safety features are covered by a 2-year warranty under EU law. This warranty covers defects in materials and workmanship, but does not cover misuse, modifications, or normal wear and tear. For full warranty details, please refer to the warranty section in your user manual.

The safety features are intended to assist the user in personal safety situations but do not guarantee complete protection. The manufacturer is not liable for any injuries or damages that result from misuse or improper care of the product.
